Called to shape  
thinking of society

## CHANGE MANAGEMENT

Leading in  
times of crisis.

## EXECUTIVE INFLUENCE

Culture changing  
strategies

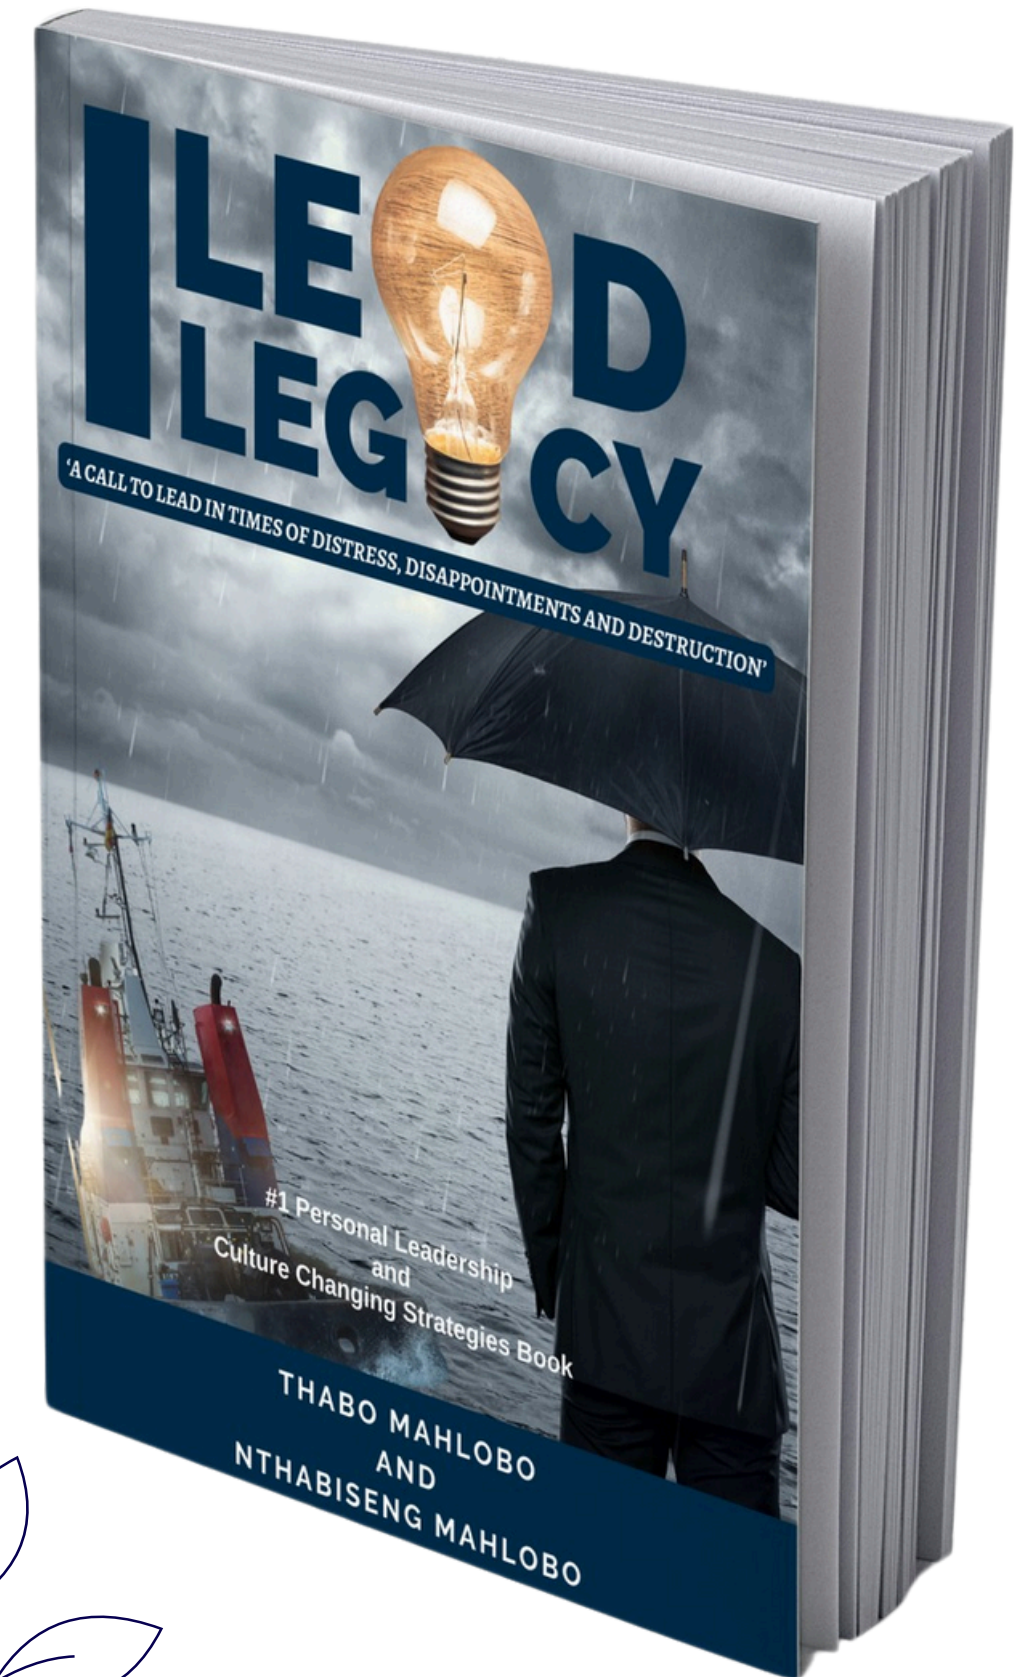

# LEAD LEGACY PROJECT

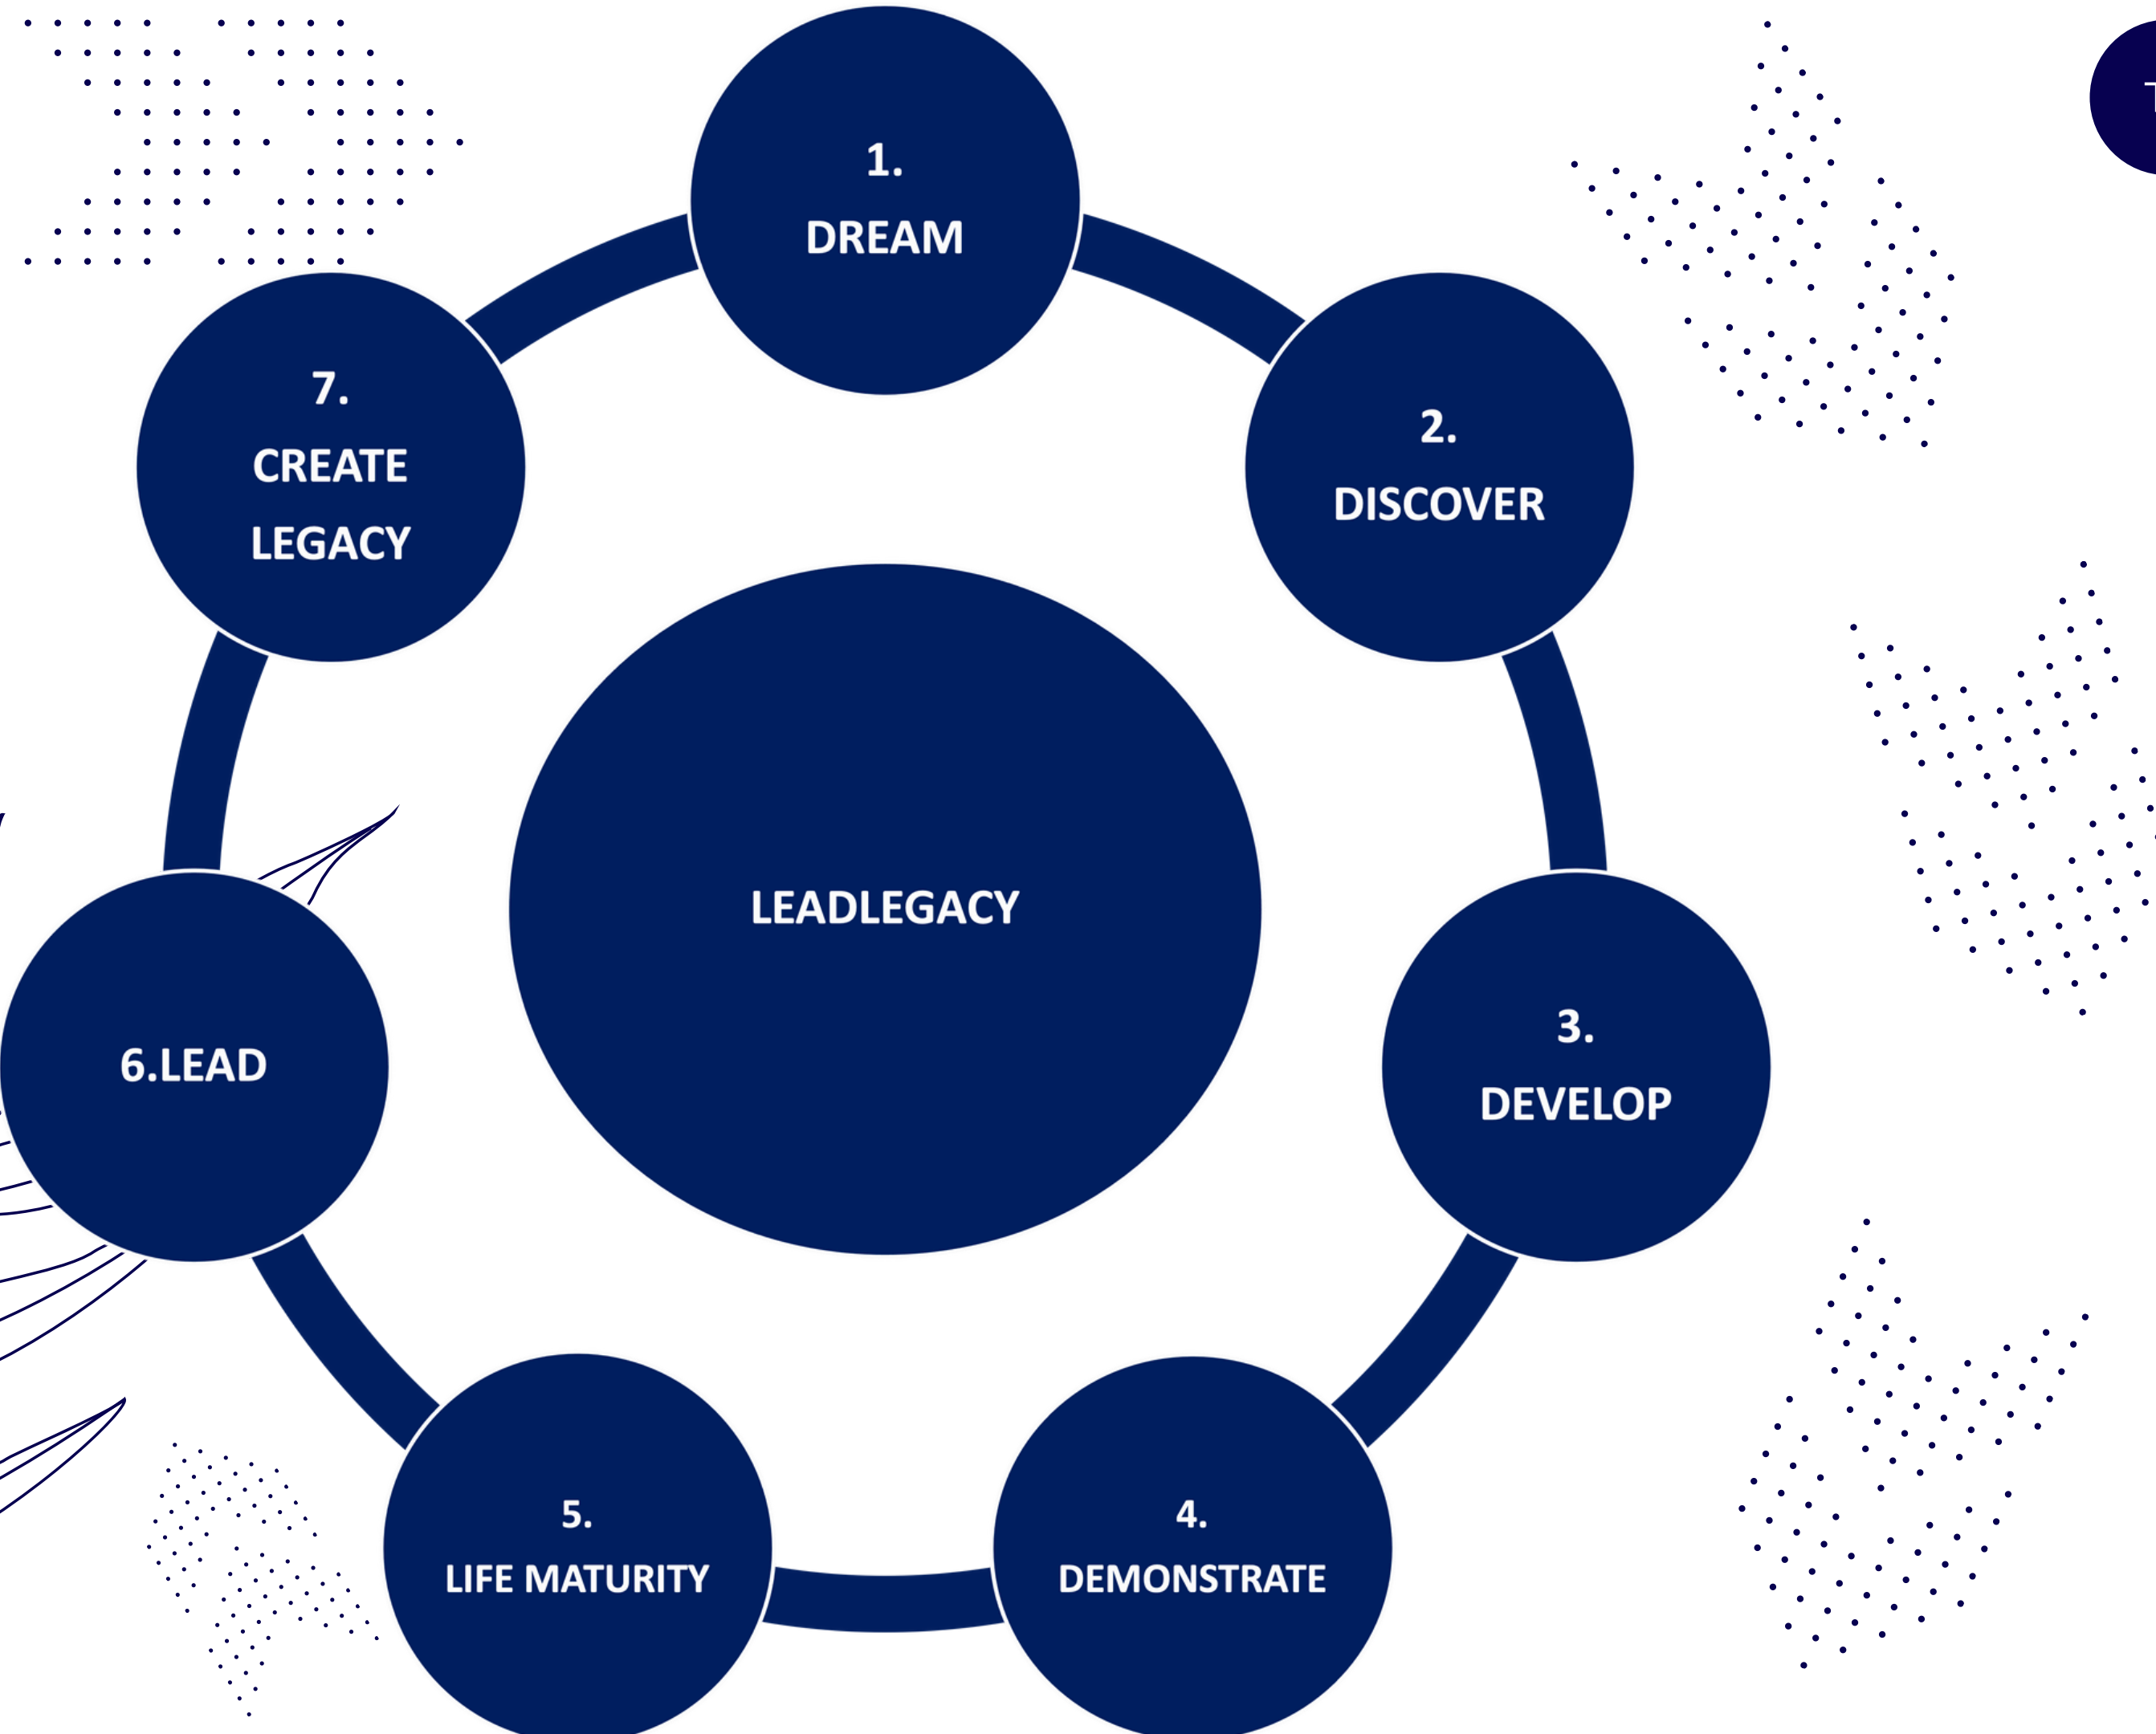

Our provide platform where Leaders can be given an opportunity to be equipped as Marketplace Leaders and work with other leaders in different spheres of society. This allows them to be mentored, coached and trained in the different disciplines to ensure that they can effectively bring transformation in their communities.

Large percentage of African population is unskilled, the number is too great for the formal education system to bear. Organizations therefore have a responsibility to contribute towards the effective education, training and development of their employees and thereby, help counter national illiteracy.

We believe that God is raising up a new remnant of men and women in the marketplace that pursue their work with an overriding ministry objective to it. Through our Programmes, Training and Workshops we trust that we will be able to incorporate biblical truth with knowledge so that we can have Bi lingual students who will know God and also know and understand the culture in the Marketplace , and accurately represent the Kingdom of God

Dr Lance Covan believes that in order to engage those who do not think like them, and in order to be influential, young people must speak to others in a language that those people understand. "Instead of using Christian jargon and abstract, nebulous language, young people have to learn how to speak persuasively, with tact and tenacity, on a variety of topics using ideas and terms that have universal appeal.
